

## Athletic Insurance Notice

Please distribute to the parents of children who participate on athletic teams within Harlan County Public Schools.

Please be advised that the Harlan County Public School System's insurance policy for athletes **is not intended to be a primary health or accident insurance plan.** The policy provided by the county with the company Student Insurance is simply a supplemental policy. The policy we provide only covers "usual and customary charges" and may not cover the total amount billed, the remainder of the charges are the responsibility of the parent. **The policy is very limited and will not even begin to take effect until the student's primary insurance coverage has been exhausted.** In the past there has been some confusion regarding the limitations of this policy, we want all athletes to understand that this policy should not be relied upon as a primary comprehensive insurance plan.
